Professional Summary

Passionate Full Stack Developer with strong skills in building web applications and RESTful APIs. Proficient in React, Node.js, Express, and MongoDB, with a solid foundation in Data Structures and Algorithms. Skilled in problem-solving, clean code practices, and deploying scalable solutions to the cloud.

Education

Lakshmi Narain College of Technology, Bhopal

Nov 2022 – Present

Bachelor of Technology in Electronics and Communication Engineering (Current CGPA - 7.53)

Bhopal, MP

Projects

SocietySync - Society Management Platform

May 2025

Node.js, Express.js, MongoDB, React, JWT

GitHub, Live Demo

- **Developed a centralized platform** to streamline housing society operations including maintenance requests, event scheduling, and staff coordination—replacing inefficient manual tracking systems.
- Built and integrated 20+ secure RESTful APIs using Node.js and Express with middleware-based validation and JWT authentication, enabling **role-based access control** (Admin, Member, Staff).
- **Optimized MongoDB schema design and API queries**, improving reliability and performance for large-scale data retrieval.

AI ChatBot Web App

October 2025

React.js, Node.js, Express.js, Socket.io, OpenAI API

GitHub, Live Demo

- Designed an intelligent chat interface enabling dynamic, real-time conversations using OpenAI API and Socket.io.
- Implemented secure backend architecture with modular routes, middleware validation, and CORS handling for seamless client-server communication.
- Delivered a responsive UI for engaging AI interactions with real-time response streaming and scalability-ready backend.

Plotify - Movie & Media Database

April 2025

React.js, Redux Toolkit, TMDB API, Axios, Tailwind CSS

GitHub, Live Demo

- Built a movie discovery platform fetching real-time data from TMDB API with advanced search and genre filtering.
- Implemented Redux-based state management with dynamic routing for movies, TV shows, and cast information.
- Enhanced UI/UX using Tailwind CSS with animations, responsive layouts, and optimized data fetching.

Technical Skills

- **Programming Languages:** Java, JavaScript, TypeScript, SQL
- **Libraries & Frameworks:** Next.js, React.js, Node.js, Express.js, Redux, Tailwind CSS
- **Tools & Platforms:** Git, GitHub, Postman, Salesforce, VS Code
- **Cloud Platforms:** Image Kit cloud(for Storing mp3 or mp4)
- **Databases & APIs:** MongoDB, MySQL, REST APIs
- **Coursework:** Data Structures & Algorithms, Computer Networking, DBMS, Object-Oriented Programming

ACHIEVEMENTS

- **Solved 300+ LeetCode Problems**, demonstrating strong DSA and problem-solving skills. **June 2025**
- **Secured 2nd Position** in Inter-College Robo-Race Competition among 200+ participants. **April 2023**

Certifications

- **Backend Domination – Sheryians Coding School** **Sept 2025**, Certificate
- **Frontend Domination – Sheryians Coding School** **May 2025**, Certificate
- **DSA & Java Programming – Sheryians Coding School** **Nov 2024**, Certificate
